Profile

Results-driven AI and Data professional with hands-on experience in **Python, SQL, Generative AI, and Data Engineering**. Skilled in building **AI-powered applications**, automating workflows, and developing data-driven solutions using cloud platforms such as **AWS and Databricks**. Experienced in **Machine Learning, Data Analysis, and AI solution development**, focusing on improving operational efficiency and decision-making through scalable data systems.

EDUCATION

📅 08/2019 – 07/2023 📍 MYSURU, INDIA

Electrical & Electronics | Bachelor of Engineering (B.E)

The National Institute of Engineering

CGPA: 7.6

PROFESSIONAL EXPERIENCE

📅 11/2025 – PRESENT 📍 BANGALORE, INDIA

Senior consultant Emids Technologies

- Developed Python-based EDI 834 parser to process enrollment files from AWS S3.
- Implemented healthcare business rules (INS, NM1, REF, DTP) handling retro changes and plan transitions.
- Designed PostgreSQL schema with referential integrity and transaction rollback mechanisms.
- Built serverless workflows using AWS Lambda and Step Functions for scalable processing.
- Achieved 90%+ unit test coverage using Pytest.
- Implemented CI/CD best practices with linting, automated testing, and Bitbucket version control.
- Contributed to Agile delivery using Jira and mentored junior developers.

📅 10/2024 – 11/2025 📍 BENGALURU, INDIA

Program Manager & AI Engineer MAA Academy

- Delivered **AI & ML certification programs** while managing end-to-end learner onboarding, platform access, and training operations for B2B clients.
- Coordinated with **sales, trainers, and partner teams** to finalize program requirements, pricing validation, and service activation for AI training engagements.
- Managed **customer onboarding, master data updates, and LMS/AI tool provisioning**, ensuring seamless access to learning platforms and resources.
- Supported **program billing, invoice coordination, and revenue tracking**, aligning financial operations with

PROFESSIONAL EXPERIENCE

training delivery timelines.

- Built **operational dashboards and reports using Excel, SQL, and Power BI** to monitor program performance, learner engagement, and operational efficiency.

📅 09/2023 – 10/2024 📍 NARSAPURA, INDIA

Data Analyst TATA Electronics

- Analyzed production data and identified process inefficiencies, reducing them by 25%, while improving production efficiency by 15%.
- Built predictive models using Python and SQL to optimize operational workflows, enhancing process performance by 20%.
- Designed interactive Power BI dashboards to facilitate real-time, data-driven decision-making by management.
- Ensured data accuracy and integrity through systematic validation and quality checks, improving reporting precision

CORE SKILLS

- Analytical Thinking & Problem Solving
- Innovation & Continuous Learning
- Research & Data-Driven Decision Making
- Cross-Functional Collaboration
- Communication & Stakeholder Management

TECHNICAL SKILLS

- Python and SQL
- Artificial Intelligence (AI) and Machine Learning
- Generative AI and Prompt Engineering
- Databricks and PySpark
- AWS (Amazon Web Services) and Cloud Computing
- Data Engineering and ETL Pipelines
- Pandas and NumPy
- Power BI and Advanced Excel

CERTIFICATIONS

- **Advanced Certification in Artificial Intelligence & Machine Learning** — MAA Academy | Feb 2025
- **Generative AI & Prompt Engineering** — MAA Academy | Jul 2025
